INDEPENDENT AUDITOR'S REPORT

**To the Board of Commissioners
Township of Cumru
Mohnton, Pennsylvania**

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Cumru as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risks assessments, the auditor considers internal control relevant to the Township's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used, and the reasonableness of significant accounting estimates made, by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Cumru as of December 31, 2020, and the respective changes in the modified cash basis financial position and, where applicable, cash flows thereof for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Change in Accounting Principle

As described in Note 1 to the financial statements, effective January 1, 2020, the Township of Cumru adopted new accounting guidance related to accounting for fiduciary component units. Our opinions are not modified with respect to this matter.

Basis of Accounting

We draw attention to Note 1 of the financial statements which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole that collectively comprise the Township of Cumru's basic financial statements. The combining modified cash basis - nonmajor governmental funds financial statements and combining modified cash basis - fiduciary funds financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining modified cash basis - nonmajor governmental funds financial statements and combining modified cash basis - fiduciary funds financial statements are the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining modified cash basis - nonmajor governmental funds financial statements and combining modified cash basis -fiduciary funds financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole on the basis of accounting described in Note 1.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole that collectively comprise the Township of Cumru's basic financial statements. The budgetary comparison information and the pension and other postemployment benefits information on pages 44 - 46, which are the responsibility of management, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Repayment of note principal is an expenditure in the governmental funds, but the repayment reduces long-term transactions in the statement of activities as shown below:

TOWNSHIP OF CUMRU

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2020

The Township of Cumru (the "Township"), Berks County, Pennsylvania, is a first class township created in 1737. The Township is governed by five (5) elected commissioners in accordance with laws of the Commonwealth of Pennsylvania. The commissioners must be residents and registered voters who are elected every two years, on a staggered basis, for a four-year term. The commissioners have the power to establish policies to be carried out by the Township. The commissioners appoint a manager who is responsible for the execution of all actions of the commissioners. The manager manages the Township with the assistance of the Township secretary and the director of public services.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As described further in Note 1D., these financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP) established by the Governmental Accounting Standards Board (GASB). These modified cash basis financial statements generally meet the presentation and disclosure requirements applicable to GAAP, in substance, but are limited to the elements presented in the financial statements and the constraints of the measurement and recognition criteria of the modified cash basis of accounting.

A. Financial Reporting Entity

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the Township (the primary government) and its component units.

The Township used guidance contained in generally accepted accounting principles to evaluate the possible inclusion of related entities (authorities, boards, councils, fiduciary activities, etc.) within its reporting entity. Accounting principles generally accepted in the United States of America require that the reporting entity consists of the primary government and legally separate entities for which the primary government is financially accountable. In addition, the primary government may determine through the exercise of management's professional judgment that the inclusion of a legally separate entity that does not meet the financial accountability criteria is necessary in order to prevent the reporting entity's financial statements from being misleading. In such instances, that legally separate entity should be included as a component unit if the nature and significance of their relationship with the primary government or other component units are such that the exclusion from the financial reporting entity would render the financial reporting entity's financial statements incomplete or misleading. In evaluating how to define the reporting entity, management has considered all potential component units.

Based on the foregoing criteria, the Township has determined it has two fiduciary component units. The Township's defined benefit pension plans are considered fiduciary component units and are reported as pension trust funds in the fiduciary fund financial statements.

TOWNSHIP OF CUMRU

NOTES TO BASIC FINANCIAL STATEMENTS

December 31, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

B. Basis of Presentation - Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the reporting government as a whole within the limitations of the modified cash basis of accounting. They include all funds of the reporting entity except for fiduciary funds which are reported only in the fund financial statements. The government-wide statements include separate columns and distinguish between the governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental receipts, and other nonexchange receipts. Business-type activities are financed, in whole or part, by fees charged to external parties for goods or services.

The statement of activities demonstrates the level to which the direct expenses of a given function of the Township are offset by the program revenues related to that function. Direct expenses are those that are directly related to and clearly identified with a function. Program revenues include 1) charges to customers or others who purchase, use, or directly benefit from services or goods provided by a given function, or 2) taxes and grants and contributions that are restricted to meet the operational or capital requirements of a function. Taxes and other items not includable in program revenues are reported as general revenues.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are the transfers between governmental funds and business-type and fiduciary funds. Elimination of these contributions would distort the direct costs and program revenues reported for the various functions concerned.

C. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as one column (nonmajor funds) on the fund financial statements.

The Township Reports the Following Major Governmental Funds:

General Fund - This fund is established to account for resources devoted to financing the general services that the Township performs for its citizens. General tax receipts and other sources of receipts used to finance the fundamental operations of the Township are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

The Township Reports the Following Major Governmental Funds - continued:

Special Revenue Funds - These funds are established to account for the cash receipts of specific sources other than expendable trusts or major capital projects that are legally restricted to disbursements for specified purposes.

The Township's only major special revenue fund is:

- Fire Protection Fund - This fund is used to account for the proceeds from the real estate assessment of 1.23 mills for assisting with fire related public safety expenses.

Capital Projects Fund - This fund is used to account for financial resources set aside for future capital asset needs of the Township and to account for debt issued in relation to the acquisition and construction of major capital facilities other than those financed by proprietary funds.

The Township's Nonmajor Governmental Funds Are:

Special Revenue

- Ambulance Fund - This fund is used to account for the proceeds from the real estate assessment of 0.27 mills for assisting with ambulance safety expenditures.
- Sewage Management Fund - This fund is used to account for sewage management program assessments and fees used for the inspection and enforcement of regulations of on-lot sewage disposal systems.
- Refuse Collection Fund - This fund is used to account for refuse collection and recycling fees and grants.
- Liquid Fuels Fund - This fund is used to account for the proceeds from the State Motor License Fund. Under the act of June 1, 1956, P.O. 1944, No. 145, this fund must be kept separate from all other funds and no other funds shall be commingled with this fund. Expenditures are legally restricted to expenditures for highway purposes in accordance with Department of Transportation regulations.
- Storm Water Fund - This fund is used to account for fees paid by developers to be used for storm water inspections and improvements.

Debt Service Fund - This fund is established for the purpose of accumulating resources for the payment of interest and principal on long-term general obligation debt other than those payable from enterprise funds. A portion of the real estate tax revenues is assessed for this fund.

C. Basis of Presentation - Fund Financial Statements - continued

The Township has the Following Major Proprietary (Enterprise) Fund:

Enterprise Funds - These funds are used to account for business-like activities provided to the general public. Activities are financed primarily by user charges, and the measurement of financial activity focuses on net income measurement similar to the private sector. The Township's only major enterprise fund is the following:

- Sewer Fund - is used to account for the operation of the sewer collection system which is operated as a public utility and not included as a regular function in the general fund.

Additionally, the Township Reports the Following Fund Types:

Fiduciary Funds - The Township's fiduciary funds are trust funds. Trust funds are used to account for assets held by the Township under a trust agreement for individuals, private organizations, or other governments and, therefore, are not available to support the Township's own programs. The Township's pension trust funds include:

- *Cumru Township Police Defined Benefit Pension Fund* - This fund was established to provide pension benefits to Township police employees.
- *Cumru Township Nonuniformed Defined Benefit Pension Fund* - This fund was established to provide pension benefits to Township employees.

During the course of operations, the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as interfund receivables and payables. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

D. Measurement Focus and Basis of Accounting

The accounting and financial treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus is a term used to describe what transactions or events are recorded within the various financial statements. Basis of accounting refers to when and how transactions or events are recorded, regardless of the measurement focus applied.

1. Measurement Focus

In the government-wide statement of net position and statement of activities, both governmental and business-like activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting.

In the fund financial statements, the current financial resources measurement focus or the economic resources measurement focus, as applied to the modified cash basis of accounting, is used as appropriate:

- All governmental funds utilize a current financial resources measurement focus within the limitations of the modified cash basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- The proprietary fund utilizes an economic resources measurement focus within the limitations of the modified cash basis of accounting. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), net financial position, and cash flows. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources (whether current or noncurrent or financial or nonfinancial) associated with their activities are generally reported within the limitations of the modified cash basis of accounting.
- The fiduciary funds utilize an economic resources measurement focus within the limitations of the modified cash basis of accounting. All assets and liabilities (whether current or noncurrent or financial or nonfinancial) associated with their activities are generally reported within the limitations of the modified cash basis of accounting.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

D. Measurement Focus and Basis of Accounting - continued

2. Basis of Accounting

The financial statements are presented in accordance with a modified cash basis of accounting, which is a basis of accounting other than GAAP as established by GASB. This basis of accounting involves modifications to the cash basis of accounting to report in the statements of net position or balance sheets cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. Such reported balances include investments, interfund receivables and payables, payroll taxes withheld, developer escrows, capital assets for enterprise funds, and all long-term debt obligations arising from cash transactions or events for both enterprise and governmental funds.

This modified cash basis of accounting differs from GAAP primarily because certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected and other accrued revenue and receivables) and certain liabilities and their related expenses or expenditures (such as accounts payable and expenses for goods or services received but not yet paid and other accrued expenses and liabilities) are not recorded in these financial statements. In addition, other economic assets, deferred outflows of resources, liabilities, and deferred inflows of resources that do not arise from cash transactions or events are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value, except investments which are reported at fair value.

If the Township utilized accounting principles generally accepted in the United States of America, the fund financial statements for governmental funds would use the modified accrual basis of accounting, and the fund financial statements for proprietary and fiduciary fund types would use the accrual basis of accounting. All government-wide financial statements would be presented in accordance with the accrual basis of accounting.

E. Financial Position

1. Cash and Cash Equivalents

For purposes of reporting cash flows, the proprietary fund type considers all cash accounts which are not subject to withdrawal restrictions or penalties, and all highly-liquid debt investments purchased with a maturity of three months or less to be cash and cash equivalents.

2. Investments

The Township commissioners are authorized by statutes to invest its funds as defined in the Township Code. When making investments, commissioners can combine monies from more than one fund under the commissioners' control for the purchase of a single investment and join with other political subdivisions in the purchase of a single investment.

Investments are valued at fair value in accordance with Governmental Accounting Standards Board Statement No. 72, *Fair Value Measurement and Application*, except for investments in external investment pools, which are valued at amortized costs if required criteria are met as outlined in Governmental Accounting Standards Board Statement No. 79, *Certain External Investment Pools and Pool Participants*.

The Township categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Investments are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the fair value of investments will occur in the near-term and that such changes could materially affect the amounts reported in the statement of financial position.

3. Restricted Escrow Deposits

The restricted escrow deposits represent cash received by the Township from developers to cover the Township's cost of reviewing and approving development plans and as security deposits to ensure the related developments are completed in accordance with approved plans.

4. Interfund Transactions

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the year are referred to as "interfund receivable/payables." Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide financial statement as "internal balances."

5. Capital Assets

In the government-wide and fund financial statements, capital assets arising from cash transactions are recorded as capital outlay expenditures (expenses) upon acquisition for governmental activities.

5. Capital Assets - continued

The business-type funds (proprietary funds) use the modified cash basis of accounting for capital assets for both the government-wide statements of net position and the fund statements. Capital assets resulting from cash transactions are set up as assets and depreciation is reported as necessary. All business-type capital assets are valued at historical cost. Major improvements are capitalized, while maintenance and repairs of property and equipment and infrastructure costs are charged to operations. Upon retirement, sale, or other disposition of property and equipment, the cost and accumulated depreciation are eliminated from the amounts and a gain or loss is included in operations. Depreciation expense is recorded as an allocated expense to the appropriate function using the straight-line method of depreciation. A capitalization threshold of \$2,500 is used to report business-type capital assets. Estimated useful lives are as follows:

Leasehold improvements	20 - 50 years
Wastewater collection systems	40 years
Machinery and equipment	7 - 15 years
Vehicles	5 years

6. Long-Term Debt

Governmental fund debt proceeds are reported as other financing sources in the fund financial statements and as a liability in the government-wide financial statements. Payment of principal and interest are reported as expenditures in the governmental fund statements and payment of principal is a reduction of a liability in the government-wide statements. Proprietary fund debt is recorded as a liability in the fund financial statement and as a liability in the proprietary fund government-wide statements with interest expense recognized in the period paid.

7. Net Position/Fund Balance Classifications

Government-Wide Statements, Proprietary Funds, and Fiduciary Funds

Net position is classified and displayed in three components:

Investment in capital assets - This component groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balance of debt reduce the balance in this component.

Restricted - This component presents external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments, and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted - This component represents net positions of the Township, which are not restricted for any project or other purpose.

Flow Assumption - When both restricted and unrestricted resources are available for use, it is the Township's policy to use restricted resources first, then unrestricted resources as they are needed.

Governmental Fund Financial Statements

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable - Amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for the specific purposes stipulated by external resource providers such as grantors or enabling legislation. Restrictions may be changed or lifted only with the consent of the resource providers.

Committed - Amounts that can be used only for a specific purpose determined by a formal action (resolution) of the Township commissioners, the government's highest level of decision-making authority. The formal action to commit fund balance to a specific purpose must occur prior to the end of the reporting period, but the amount which will be subject to the constraint may be determined in the subsequent period. Committed funds may only be changed or lifted by the same formal action taken to commit them.

Assigned - Amounts that the Township commissioners intend to use for a specific purpose. Assignments of fund balance are made by the Township commissioners.

Unassigned - Amounts that are not included within any other classification noted. Unassigned amounts are the portion of fund balance not obligated or specifically designated and is available for any purpose.

Fund Balance Policies

Spending Policy

The Township does not have a formal fund balance policy regarding the use of restricted resources; therefore, the default policy from the government accounting standards will be used. Any disbursement incurred for a purpose in which restricted and unrestricted fund balance amounts are available are satisfied through restricted fund balance amounts before unrestricted fund balance amounts. When an expenditure is incurred for a purpose in which unrestricted fund balance amounts are available under committed, assigned, or unassigned fund balances, the fund balance is consumed as follows: committed, assigned, and unassigned.

Minimum Fund Balance Policy

The Township has no formal minimum fund balance policies or any formal stabilization arrangements in place.

F. Revenues, Expenditures, and Expenses

1. Program Revenues

In the statement of activities, revenues that are derived directly from each activity or from parties outside the Township's taxpayers are reported as program receipts. The Township has the following program receipts in each activity:

General Government - Charges for services include receipts for licenses, franchise fees, fines, and permits. Operating grants include revenues for general government expenditures.

Public Safety - Charges for services include receipts for fines, permits, and sewage management charges. Operating grants include foreign fire insurance tax distribution from the Commonwealth of Pennsylvania and state police grants.

Public Works: Sanitation - Charges for services include fees charged for refuse collection. Operating grants include recycling grants from the Commonwealth of Pennsylvania.

Public Works: Highways and Streets - Charges for services include traffic impact fees and storm water fees from developers. Operating grants include proceeds from the State Motor License Fund through the Commonwealth of Pennsylvania.

1. Program Revenues - continued

Culture and Recreation - Includes receipts from the Township's recreation board activities.

Employer Paid Benefits and Insurance - Includes general municipal pension system state aid from the Commonwealth of Pennsylvania.

All other governmental revenues are reported as general revenue. All taxes are classified as general revenues even if restricted for a specific purpose.

2. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer fund are charges to customers for waste disposal treatment. Operating expenses for the sewer fund include personnel, maintenance, operations, contracted services, professional fees, materials and supplies, and depreciation. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

3. Property Taxes

Property taxes are levied on March 1 and are payable on or before June 30. The tax levy ordinance for the 2020 calendar year levied taxes on March 1, 2020, at 6.48 mills (4.645 mills for general operating purposes, 0.335 mills for debt service, 0.27 mills for ambulance, and 1.23 mills for fire protection). Taxes paid prior to April 30 are payable at a 2% discount, and taxes paid after June 30 are assessed at a 10% penalty. Due to the COVID-19 pandemic, Township commissioners passed a resolution extending the flat payment period to September 30, 2020. As such, only tax payments received after September 30, 2020, were assessed a 10% penalty. Taxes not paid as of January 15 are considered delinquent and are turned over to the Berks County Tax Claim Bureau for collection. The taxes are levied based on assessed values on property. Assessed values are an approximation of market value. All taxable real property was assessed at \$887,381,100.

4. Compensated Absences

Compensated absences for vacation and sick leave are recorded when paid.

5. Other Postemployment Benefits

The Township provides certain benefits for its retired employees. The cost of such benefit is charged to expense as the premiums are paid.

G. Use of Estimates

The preparation of the financial statements in accordance with the modified cash basis of accounting used by the Township requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The World Health Organization recognized COVID-19 as a global pandemic in 2020, prompting many national, regional, and local governments to implement preventative or protective measures, such as travel and business restrictions, temporary store closures, and wide-sweeping quarantines and stay-at-home orders. As a result, COVID-19 and the related restrictive measures have had a significant adverse impact upon many sectors of the economy. Overall, the risk related to the outlook uncertainty and long-term economic impact of COVID-19 is unknown and these financial statements do not reflect any adjustments due to this uncertainty.

H. Adoption of Accounting Standard

Effective January 1, 2020, the Township adopted new accounting standard guidance related to the reporting of defined contribution pension plans within the fiduciary funds of a government. The guidance clarified two aspects of determining whether a defined contribution pension plan meets the criteria of a fiduciary component unit under previous accounting standards adopted. The focus of the new standard was (1) the absence of a formal pension board to oversee the defined contribution plan does not default the municipal elected officials to be the board as noted in previously adopted accounting standards, and (2) a contribution to a defined contribution pension plan by a government does not constitute a financial burden as defined in the previously adopted accounting standards. Under the new accounting guidance, the Township's defined contribution pension plan does not meet the definition to be reported as a fiduciary fund, and therefore will not be included within the reporting entity's basic financial statements. This resulted in a restatement of the beginning of year net position in the fiduciary fund statement of changes in net position to exclude the previously reported nonuniformed defined contribution pension plan in the amount of \$1,030,853.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Data

The Township adopts an annual operating budget, which can be amended by the commissioners throughout the year. Formal budgetary accounting is employed as a management control for all funds of the Township. However, legal budgets are adopted only for the general fund. For each of the funds for which a formal budget is adopted, the same basis of accounting is used to reflect actual revenues and expenditures recognized on the cash basis. For this reason, no reconciliation will be needed between budgeted and actual amounts.

The Township follows the procedures outlined below in establishing the budgetary data reflected in the financial statements:

1. Prior to December 1, the Township manager submits to the Township commissioners a proposed operating budget for the fiscal year commencing the following January. The operating budget includes proposed expenditures and the means of financing them.
2. A public hearing is conducted at the Township meeting to obtain taxpayer comments.
3. Prior to January 1, the budget is legally enacted through passage of an ordinance.

Excess of Expenditures Over Appropriations

For the year ended December 31, 2020, no individual fund which had a legally adopted budget had an excess of expenditures over appropriations.

NOTE 3 - CASH AND INVESTMENTS

Under Section 1705.1 of the Commonwealth of Pennsylvania First Class Township Code, the Township is permitted to invest funds in the following types of investments:

Obligations of (a) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (c) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

Deposits in savings accounts, time deposits, or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and for any amounts above the insured maximum, provided that approved collateral as provided by law, therefore, shall be pledged by the depository.

Pension cash and investments	<u>19,443,135</u>
	<u>\$ 49,919,075</u>

Cash

Custodial Credit Risk - Deposit

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Township does not have a policy for custodial credit risk. As of December 31, 2020, the carrying amount of the Township's deposits was \$16,038,746 and the bank balance was \$16,173,593. Of the balance, \$500,000 was covered by federal depository insurance and \$15,673,593 was exposed to custodial credit risk but covered by collateralization requirements in accordance with Act 72 of the 1971 Session of the Pennsylvania General Assembly.

Pooled Cash and Investments

As of December 31, 2020, the Township had the following pooled cash and investments:

	<u>Fair Value</u>	<u>Carrying Value</u>
PA Local Government Investment Trust (PLGIT): PLGIT/Prime	\$ 14,435,719	\$ 14,435,719
Plus: reconciling items		<u>108</u>
Total pooled cash and investments		<u>\$ 14,435,827</u>

Certain external pool investments held by the Township, based on portfolio maturity, quality, diversification, and liquidity measures, qualify for measurement at amortized cost at both the pool and the participating government levels consistent with GASB Statement No. 79. The Township measures those investments, which include \$14,435,827 (PLGIT), at amortized cost.

Pooled Cash and Investments - continued

A portion of the Township's deposits were in the Pennsylvania Local Government Investment Trust (PLGIT). PLGIT acts like a money market mutual fund in that the objective is to maintain a stable net asset value of \$1 per share, is rated by nationally recognized statistical rating organization, and is subject to an independent annual audit.

PLGIT invests primarily in U.S. Treasury and federal agency securities and repurchase agreements secured by such obligations, as well as certain municipal obligations and collateralized or insured certificates of deposit. The fund manager intends to comply with guidelines similar to those mandated for money-market funds as contained in Rule 2a-7 of the Investment Company Act of 1940.

PLGIT/PRIME - A variable rate investment portfolio rated AAAM by Standard & Poor's which requires no minimum balance and no minimum investment. This option limits redemptions or exchanges to two per calendar month.

The Township's cash equivalent investments in PLGIT cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. The fair value of the Township's position in the external investment pool is the same as the value of the pool shares. All investments in external investment pools that are not registered with the Securities and Exchange Commission are subject to oversight by the Commonwealth of Pennsylvania.

As of December 31, 2020, the entire PLGIT book balance of \$14,435,827 is considered to be a cash equivalent for presentation on the government-wide and fund financial statements.

Pension Trust Funds

The pension trust funds' investments are held separately from those of other Township funds. Assets in the pension trust funds are stated at fair value. Any premiums or discounts are recognized as a gain or loss upon disposition. The Township maintains investment policies that summarize the investment philosophy of the Township and establishes investment guidelines and performance objectives for both the Police and Nonuniformed Pension Plans.

Pension Trust Funds - continued

As of December 31, 2020, the Township had the following cash and investments in its pension trust funds:

Cash or Investment Type	Fair Market Value	Level
Mutual funds - pooled investments	\$ 2,064,847	2
Mutual funds - publicly traded	639,954	1
Common stocks	10,854,889	1

	18,061,555	
 Cash and cash equivalents	 1,381,580	 N/A
 Total Pension Cash and Investments	 \$ 19,443,135	

The Township categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

An investment company holds the Township’s pooled investments in diversified and balanced portfolios consisting of mutual funds. These investments are valued based on the quoted market prices for shares held. The fair value of the Township’s pooled investments has been established utilizing the net asset value of the units allocated to the Township.

Interest Rate Risk

The Township does not have a formal investment policy that limits maturities in certain investments as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The risk that an issuer or other counterparty to an investment will not fulfill its obligation is called credit risk. The pension trust funds have no formal investment policy that would limit its investment choices based on credit ratings by nationally recognized statistical rating organizations. As of December 31, 2020, the pension trust funds’ investment in corporate bonds range in ratings from AA+ to BBB- by Standard and Poor’s.

Concentration of Credit Risk

The Township places no limit on the amount the Township may invest in any one issuer. There were no investments in the Police Pension Plan or the Nonuniformed Plan that constituted more than 5% of any of the plan net assets available for benefits at December 31, 2020. In addition, the plans did not have any investment transactions with related parties during the year.

Custodial Credit Risk

For deposits and investments, custodial credit risk is the risk that in the event of the failure of the bank or counterparty the pension trust funds will not be able to recover the value of their deposits or investments or collateral securities that are in the possession of an outside entity. The pension trust funds do not have a formal deposit or investment policy for custodial credit risk. The Township's investments in mutual funds cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. As of December 31, 2020, a portion of the Township's pension balance was exposed to custodial credit risk.

NOTE 4 - INTERFUND TRANSFERS

Interfund transfers are as follows at December 31, 2020:

	Transfers In	Transfers Out

General Obligation Bonds, Series of 2020 - continued

Funds to satisfy the 2020 General Obligation Bonds will be provided by sinking fund cash on hand in the capital projects fund and future tax revenues with payments made by the Debt Service Fund. Total interest expense paid during the year was \$35,998. Other costs included in interest expense were \$346,821 of debt issuance closing costs.

The bonds are secured by the pledged full-faith, credit and taxing power of the Township. The bonds are issued in accordance with provisions of the Local Government Unit Debt Act, Act No. 177 of December 19, 1996 (the "Act"). In the event of failure of the Township to pay or cause to be paid the interest on or principal of the Bonds, the holders of the Bonds shall be entitled to certain remedies provided by the Act. Among the remedies, if the failure to pay shall continue for 30 days, holders of the Bonds shall have the right to recover the amount due by bringing a civil action in the Court of Common Pleas in the county in which the Township is located. The Act provides that any judgment shall have an appropriate priority upon the money next coming into the treasury of the Township.

NOTE 7 - PENSION PLANS

The Township of Cumru administers and contributes to the Cumru Township Police Pension Plan (PPP), which is a defined benefit plan, and the Cumru Township Nonuniformed Pension Plan (NUPP), which is a cash balance plan with a defined contribution. The NUPP also has a defined benefit component that was frozen December 31, 2012. Both plans are single employer, public employee retirement plans. The assets of the plans are invested separately, and each plan's assets may be used only for the payment of benefits to the members of the plan, in accordance with the terms of the plan. The defined contribution component of the NUPP no longer qualifies as a fiduciary component unit or a fiduciary fund and therefore is not included in the Township's financial statements.

Plan Descriptions

PPP is a single-employer defined benefit plan that covers all full-time members of the police force upon completion of a probationary period. PPP provides for retirement, disability, and death benefits to plan members and their beneficiaries. A member may retire after reaching age 50 and completion of 25 years of service. Benefits vest after 12 years of service. Employees who retire after reaching age 50 are entitled to monthly pension payments for the remainder of their lives equal to 50% of the average monthly pay based on the last 36 months of employment, plus \$100 for each year of service over 25 years with a maximum of \$500 per month. Payments continue after participant's death to the surviving spouse, providing not remarried, or to dependent children to age 18. For post January 1, 2000 retirees, an annual cost of living adjustment is made to retirees with a maximum total cost-of-living increase of 30% and a maximum pension benefit of 75% of the salary used for computing retirement benefit. The Plan was amended in 2004 to include the DROP provision.

NOTE 7 - PENSION PLANS - CONTINUED

Plan Descriptions - continued

If active and killed in line of duty, a monthly death benefit is paid to the spouse or eligible child equal to 100% of monthly salary at time of death. Pension provisions include death benefits whereby the beneficiary is entitled to receive a death benefit equal to 50% of the benefit the member would have been receiving had he/she been retired at the time of death. In addition, \$26,000 in death benefits are provided by insurance policies held outside the Plan.

A disabled employee is entitled to receive disability benefits as long as the disability continues. Disability pension to equal 50% of the average monthly pay.

The Cumru Township Nonuniformed Pension Plan provides pension benefits, early or late optional retirement benefit provisions, and death and disability benefits. Effective December 31, 2012, Cumru Township elected to discontinue the accrual of service impacting the defined benefit provisions of the plan. In addition, the Township elected to provide 100% vesting for all plan participants at December 31, 2012. Effective January 1, 2013, the defined contribution plan was initiated. This Plan was adopted by an ordinance on June 17, 2014.

Under the defined benefit plan in place through December 31, 2012, a member may retire after reaching age 65. Benefits vest after seven years of service. Employees who retire after reaching age 65 with seven or more years of service are entitled to monthly pension benefits for the remainder of their lives equal to 1.5% of average monthly pay multiplied by years of service. Average monthly pay is based on the last five calendar years ending prior to the date of retirement. A member is eligible for early retirement after attainment of age 55 and completion of 10 years of service. The accrued benefit is reduced by 6-2/3% for each year up to 5 years that early retirement precedes normal retirement and by 3-1/3% for each year between 5 and 10 years early.

Under the defined contribution plan in place as of January 1, 2013, a member may retire after reaching age 65. Benefits vest after seven years of service. A member is eligible for early retirement after attainment of age 55 and completion of 10 years of service.

NOTE 7 - PENSION PLANS - CONTINUED

Funding Policy

The contribution requirements of plan members and the Township are established and may be amended by the Township commissioners. Police and Nonuniformed Pension Plan members are required to contribute 5.0% and 3.0% of compensation, respectively. The contributions required of the Township under the defined benefit plans are based on actuarial valuation and are expressed as a percentage of annual covered payroll during the period for which the amount is determined. For the fiscal year ended December 31, 2020, the rate of Township contributions for the Police Pension Plan and the Nonuniformed Pension Plan was 23.2% and 1.6% of covered payroll, respectively. The contributions required of the Township under the cash balance component of the Nonuniformed Pension Plan are 2% of each covered employee's annual compensation, but not less than \$2,900 or more than the maximum permissible amount as provided by law. The total Township and employee contributions to the Police Pension Plan for the years ended December 31, 2020, 2019, and 2018 were \$1,001,629, \$966,818, and \$743,365, respectively, which are equal to or exceed the required contribution for each year. The total Township contributions to the Nonuniformed Defined Benefit Pension Plan for the years ended December 31, 2020, 2019, and 2018 were \$67,606, \$73,222, and \$28,254, respectively, which are equal to or exceed the required contribution for the year. The total Township and employee contributions to the Nonuniformed Defined Contribution Pension Plan for the years ended December 31, 2020, 2019, and 2018 were \$170,890, \$154,894, and \$163,479, respectively, which are equal to or exceed the required contribution for each year.

NOTE 8 - OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The Township administers a single-employer defined benefit healthcare plan (the Police Other Postemployment Benefits Plan). The plan provides lifetime healthcare insurance for eligible retirees and their spouses through the Township's health insurance plan, which covers both active and retired members. Benefit provisions are established through negotiation with the Township and the unions representing the Township's employees. The Police Other Postemployment Benefits Plan does not issue a publicly available financial report.

Funding Policy

Contribution requirements are negotiated between the Township and union representatives. The required contribution is based on pay-as-you-go financing. For all employees upon attainment of age 55 that were retired or disabled in the line of duty (an officer is eligible for retirement upon attainment of age 50 and completion of 25 years of service), the Township pays the premium determined for the member's health, prescription drug, dental, and vision insurance only at the time of retirement. The member is responsible for any additional premium due to increases in the premium after retirement or coverage of a spouse and any eligible dependents. Their benefits are for their life plus one surviving spouse and eligible dependents to receive medical, prescription drug, dental, and vision until the earlier of three years, death, remarriage, or attaining eligibility for coverage under another plan.

NOTE 8 - OTHER POSTEMPLOYMENT BENEFITS - CONTINUED

Funding Policy - continued

The retired plan member may elect to continue coverage for themselves and their dependents until the retired plan member reaches Medicare age. If coverage from alternative employment is lost, coverage with the Township shall be reinstated. For the fiscal year ended December 31, 2020, the Township made no contribution to the plan related to retirees.

NOTE 9 - DEFERRED COMPENSATION PLAN

Effective January 1, 1996, the Township implemented a deferred compensation plan in accordance with Internal Revenue Code Section 457. The plan, available to those employees who meet eligibility requirements set forth in the plan, permits them to defer a portion of their salaries until future years. The deferred compensation is not available to employees until termination, retirement, death, disability, or unforeseeable emergency. The Township has no liability for losses under the plan arising from expense charges of any kind or from depreciation or shrinkage in the value of assets of the plan, but does have the duty of executing due care that would be required of an ordinary prudent investor. Contributions to the plan are voluntary employee deductions, with the Township making no contributions.

NOTE 10 - FUND BALANCE

NOTE 12 - COMMITMENTS AND CONTINGENCIES

Various claims and lawsuits are pending against the Township. In the opinion of the Township management and solicitor, the outcome of these claims and lawsuits will not have a material adverse effect on the accompanying financial statements.

A Sewer Agreement with the City of Reading is still pending. Township management has designated \$2,897,253 in sewer fund net position to cover potential costs once the new agreement is signed.

The Township has entered into a contract for \$1,859,280 related to sewer capital projects. The commitment will be funded through a \$100,000 state grant with the remaining commitment satisfied by cash on hand in the sewer fund.

NOTE 13 - CONDUIT DEBT

The Township is involved in a conduit debt transaction for which the Township issued but retained no obligation for the repayment of the debt. The responsibility for repayment belongs to Cedar Crest College. The balance of the conduit debt at December 31, 2020 is \$14,725,000 for Revenue Notes, Series of 2014, Series A of 2015, and Series B of 2015.

NOTE 14 - RISK MANAGEMENT

The Township is exposed to various risks of loss related to torts; theft of damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Significant losses are covered by commercial insurance for all areas for which the Township retains risk of loss. There were no reductions in insurance coverages for the 2020 year and settlement amounts have not exceeded insurance coverage for the current year or the three prior years.
